**REQUEST TO AMEND A PREVIOUSLY APPROVED CONTRACT AMENDMENT**

**ITEM #12**

Transmitting a Communication, dated January 6, 2011 from

ZAHRA ALI, Director, Department of Revenue

requesting that the Board of Commissioners approve as amended the following item with JP Morgan Chase Bank, Chicago, Illinois, which was previously approved on the October 5, 2010 Board Agenda, (New Item # 3).

The amendment is indicated by the underscored and stricken language.

Transmitting a Communication, dated September 29, 2010 from

ZAHRA ALI, Director, Department of Revenue

requesting authorization for the Purchasing Agent to include the Department of Revenue and amend Contract No. 05-43-197 with JP Morgan Chase Bank N.A., Chicago, Illinois, awarded by the Cook County Board on September 21, 2004 and subsequently renewed on April 9, 2008 through a Request for Proposal (RFP) process to provide lockbox services. The contract shall be amended to reflect virtual remote deposit services and online e-payments acceptance for Bureau of Administration agencies, Office of the Sheriff, Real Estate Management Division, Bureau of Finance, Bureau of Technology, Department of Administrative Hearings and various County Ordinances which require the Department of Revenue to collect payments.

Reason: This request will provide acceleration and efficiency of the revenue collection process, which is critical to meet both goals of following best practices and meeting industry standards for Cook County. Lockbox service and e-payment solutions will expedite the collection of the current paper-based payments. Currently, Department of Revenue personnel manually process 100,000 transactions in-house. Furthermore, lockbox service and e-payment solutions will provide a cost savings to the Department of Revenue. Additional benefits include better payment and posting accuracy, improve cash flow by reducing processing time, image retrieval and archiving, provide an option for electronic connectivity for taxpayers and re-assign current compliance resources to their designated job functions.

**COOK COUNTY DEPARTMENT OF REVENUE continued**

**REQUEST TO AMEND A PREVIOUSLY APPROVED CONTRACT AMENDMENT continued**

**ITEM #12 cont'd**

Funding for the lockbox is achieved through both a cost and interest accrued. Compensating balances and the amount the County will pay has an inverse relationship. While interest rates are at a historic low, the County will have a payment obligation, however, when the interest market is reinvigorated and rates begin to climb, the actual charge to the County will decrease. Based on historical analysis, it is believed that compensating balances will fund the entire expense of this operation over time.

Estimated Fiscal Impact: Total contract cost is approximately \$162,000.00 funded through ~~both a compensating balances and a line item allocation, in the event compensating balances do not fund the stated contract cost, the contract cost will be netted against collected revenue.~~ The net cost to the County will not exceed \$83,000.00 for FY 2011 and FY 2012. Contract period: October 5, 2010 through January 31, 2013. (~~007 244 Account~~). Requisition No. 0070015.

~~Approval of this item would commit Fiscal Years 2011 and 2012 funds.~~

GREG WASS, Chief Information Officer, Bureau of Technology

requesting authorization for the Purchasing Agent to enter into a contract with Pro-West & Associates, Inc., Walker, Minnesota, for application development and automation of data that will coordinate business work flow primarily between the offices of the Department of Building and Zoning and the Zoning Board of Appeals.

Reason: The objective of this project is to streamline workflows between Building & Zoning and the Zoning Board of Appeals. This project will automate the process for handling requests for zoning changes and permits, inventory of existing municipal zoning ordinances, creation of a web-based application for municipalities to report zoning changes, and the development of a countywide zoning permit application that is integrated into the County's enterprise GIS environment. Based on an RFP for the selection of a vendor to develop a zoning workflow management application and related services, award is being recommended based on ProWest's technical solution, expertise and ability to meet all of the County's specifications.

Estimated Fiscal Impact: \$657,112.00. Contract period: March 1, 2011 through July 31, 2012. (717/545-579 Account). Requisition No. 15450002.

Reason: In 2008, Cook County entered into a three (3) year lease agreement with IBM for the use of a mainframe computer. The current lease agreement provides an end of lease "option-to-buy" the mainframe at a significantly reduced cost rather than enter into another three year lease agreement. Also, mainframe technology is outdated and newer technologies are built to run in open server/thin-client systems. The expiration date of the current contract is February 20, 2011.

Estimated Fiscal Impact: \$397,280.00. (714/012-579 Account).

This item was included in the 2010 Capital Equipment Program approved by the Board of Commissioners on November 19, 2009.

Vendor has met the Minority and Women Business Enterprise Ordinance.

### **PROPOSED CONTRACT AMENDMENT**

#### **ITEM #28**

Transmitting a Communication, dated January 26, 2011 from

GREG WASS, Chief Information Officer, Bureau of Technology

requesting authorization for the Purchasing Agent to amend Contract No. 08-45-256 with Securus Technologies, Inc., Dallas, Texas, for the Coinless Inmate & Public Pay Telephone Equipment and Services by adding coinless telephone equipment and services to the Juvenile Detention Center facilities, create inmate debit accounts, and implement a simplified rate structure.

Reason: Juvenile Facility Project – Securus will provide the equipment/Applications in connection with the Secure Call Platform (SCP) services needed to support the required number and type of phones and other components and storage.

Inmate Debit Accounts – Upon the successful implementation of Voice Biometrics, it is the County's intent to install Debit accounts. This allows the inmates to call anyone and provides inmates the option of immediately paying for and making calls. Secure pins will be provided for easy investigation of calls and complaints, it enhances reporting capabilities and reduces administrative costs.

Simplified Rates – rates at Cook County today are based on AT&T rates that were previously in place. The current structure is extremely complicated for inmates and their families. A simplified rate plan will reduce complaints, reduce fraud, eliminates the need to use illegal remote call forwarding services and increase County revenues by an estimated \$623,000.00 annually.

Estimated Fiscal Impact: None. Contract period: December 1, 2007 through November 30, 2012.
